

Mortermir Milestone

Boldy James

Where we at?

Yea

I'm from the real Detroit not the townhomes
Where we ain't nothing like them boys from the brownstones (Cut way different)
Stood on the corners with them saugers and calzones
Drugs on 76th, off of Warrick me and Mortermir Milestone

As sure as the sky is gray, as pure as the whitest yay
I pour like a five a day, ay
Dior what I buy my bae
Ignore bitches night and day, say
You pay more than the price I pay
I got these niggas feeling way more than some type of way
It's all in a days work, what more is it I can say
But watch for them plane searches, stay the fuck out the way
Used to send a bag with Camille
Till she got addicted caught a hook up habit when we was trafficking
Fill in the blanks, while that bitch was picking her nose I was filli
ng drank, tryna rebuild the bank

(What else, where we at wit it)

I'm from the real Detroit not the townhomes
Where we ain't nothing like them boys from the brownstones (At all, e
verything solid one hundro)
Stood on the corners with them saugers and calzones (ConCreatures, wh
ere we at)
Off of Warrick me and Mortermir Milestone

As long as they making guns instigating wars
What the fuck you think they was gon' stop when they was making yours
Thinking you can take what's mine and just make it yours
and his kind ain't my type they some label whores
These cops need to use they tasers more
Your hitman missed fam like why the fuck he pay you for
grams I need to take em to the table more
If we knock down this big man that's a major score
Tryna make the Forbes
That's how you know I role caine cause I stay in some shit you niggas
can't afford
Can't touch what you can't feel
Just let that all soak in like the pain that I can't absorb
Don't let me take this pain that's mine and make it yours
Clean him up with the mop stick do my daily chores

(Where we at wit it)

I'm from the real Detroit not the townhomes
Where we ain't nothing like them boys from the brownstones
Stood on the corners with them saugers and calzones
Off of Warrick me and Mortermir Milestone
