Real recognize real

Yeah Bang Husky real recognize

If ya see Boldy Blocks you better recognize real

When you see Bo Skeet you better recognize real

When you see Banga boy you better recognize real

I hear your lips moving, if you real prove it

You with the movement pledge allegiance like the Constitution

Make a sacrifice, put in your contribution

The fortress of the real was birthed from the mass confusion

Gotta shoot me before I commit mutiny

And truthfully speaking, got the devil rebuking me

No disputing me, no discrepancy

I choose to make moves that only few got the recipe

If you real my dude, you ain't gotta ask

I'm right there with my tool and a Prada mask

It ain't about the cash, it's all about the bond

I stay on some concrete shit, pros and cons

You ever call my number fam, better know it's on

Lord, you stay, even when the dough is gone

I never cried when the milk got spilled

We push it for meals, signed and sealed

Real recognize real

Real recognize real

It's kill if you kill, then I die for the la familia

It's real in the field

And on the real for real, y'all niggas looking real unfamiliar

And real recognize real

Surrounded by thugs, drugs, and drug paraphernalia

Survive, but only few live to tell

Park benches, blood trails, blue cops, and bullet shells

I ain't Mr. Perfect, but the illest on the circuit

I'm what the games been missing

My emergence has changed things up

With the patience of a surgeon, I operate on verses

Confiscate your earnings, you hear the cocked burner

Then you realize it's too late to start running

I'm fucking with goons on the regular

I got a hook up on the tools, the new heckler

I'll wet you up. Once I get my decibels up, I'm to the good

They say pressure bust pipe, they stress in the hood

And once somebody erupt it's misunderstood

He was pissed cause his man ain't giving dibs on the plug

Running your jibs, get to stealing your mug

Where I'm from, that's how we handle that, get drilled by a slug

Real is what real does

Show love and don't never let nothing come between this thing of ours

Real recognize real

It's kill if you kill, then I die for the la familia

It's real in the field

And on the real for real, y'all niggas looking real unfamiliar

And real recognize real

Surrounded by thugs, drugs, and drug paraphernalia

Survive, but only few live to tell  
Park benches, blood trails, blue cops, and bullet shells

Back in 04 I fell off, like a bad bach of raw  
Probably was worth a half track or more  
More or less, bounce back off that last basketball  
Let my nuts hang, had to drag my balls, pause  
No entry fee cover charge, COD  
No credit, debit or master card, my dog  
Bodily the deeper disregard  
Anything tryna come in between this thing of ours  
R.I.P. , we the mob  
Charles ain't do good job, so now I'm taking charge  
One for the money, Hell Block, Hully Gully  
Two is for you, and your dudes trying to undercut me  
And cut me out, but they just a bunch of understudies  
Came up under me and we never was buddy, buddy  
Buddies, ride or die, getting to the money  
Never seen an eye to eye, my vision is 20-20

Real, recognize, real
