

## Lest We Forget

**Bolt Thrower**

War to end all wars  
Hatred lost control  
Casualties now mounting  
Tales yet still untold  
Life's eradication  
Of man now beyond all reason  
Totally insane  
The human race becomes

[chorus]

Lest we forget - thoughts will always haunt the mind  
Lest we forget - the bitterness remains

Vast termination  
Man made rationality  
Complete elimination  
Of life beyond brutality  
Eternal resentment  
Re-occurs time after time  
Driven to despair  
Extinction drawing near

[(chors) x 2]

Commence removal of all things valued in life  
The persecution what was once believd right  
Humanities objective now totally deranged  
When ignorance transpires, this world becomes insane.
