Check, check it out now here I come
I fly through the air and sing for freedom
Mouth to mouth like bees for honey
My ambition is the blood sucking money

I come at the ear when you least expect me
Protect yourself I'm really competitive
Spray me spray me I get more vicious
I smell you from afar and you smell delicious

Devastating, dominating on the attack
Can you feel that itch in the back of your neck?
I'm victorious when you scratch
Nana nana na you cannot catch

I multiply like everyday
Live a simple life but its okay
I play with my posse to feed and live
With 2 formations we love to creep

Buzz buzz buzzing in your ear for fun
When you're laying down and looking dumb
I wake you up and make you mad
I succeed, you do the maths

48 bites in your back
126 in your legs
I live my mark for you to see
Like a buffet for me to eat

You form a little pimple that makes me proud
I hear you cursing, scream and shout
Try to slap me but I'm too fast
I suck you dry and I keep you rash

I'm more annoying than you can find
I strike you when you sleep at night
I spread diseases for my hobby
I'm overpowered you cannot stop me
