

# No Way In Hell

Bomfunk MC's

No way, no way, no way in hell...

Exclusive  
Excuses  
Only  
Produces  
Abuses  
The chooses  
The loosest  
Of ends  
That tend  
To send  
The false inner sense  
That me and you together could actually be friends

No way in hell, we're gonna let you all know  
No way in hell, we're gonna tear up the show  
No way in hell, we're gonna let it all flow  
No way in hell, all roads lead to Rome

Yeah! We're gonna kick your monkey ass  
Yeah! We're coming with the blast  
Yeah! It's the funky sound class  
Yeah! We're gonna make it everlast

They said we couldn't do this but I know we can  
You can't keep a good man down, a God damn  
You and you and yours just better keep still  
'Cause I haven't even started with my spick and my spill

No way in hell, we're gonna let it all go  
No way in hell, we're gonna walk through the snow  
No way in hell, you're gonna put me on a hold  
No way in hell, I think I'm really getting old

Yeah! We're gonna kick your monkey ass  
Yeah! We're coming with the blast  
Yeah! It's the funky sound blast  
Yeah! We're gonna make it everlast

No way, no way, no way in hell...

Something wrong with your life when you go the lowest low  
Do you recognise yourself when you look in the mirror?  
Can't control your mind or flip your tiny brain but  
Don't hate the player if you can't play the game

No way in hell, we're gonna let it all go  
No way in hell, we're gonna walk through the snow  
No way in hell, you're gonna put me on a hold  
No way in hell, I think I'm really getting old

Yes! Yes! Yes!  
Yeah! You got your future in your hands  
Yeah! We got you peeing in your pants  
Yeah! You get no fucking chance  
Yeah! We got you steppin' on quicksand

Party-arty-arty-arty-arty-arty-arty ya...
