

# I'll Be There

Bon Iver

Said, "I'll be there"  
I won't move  
Tell me more, or tell me nothing  
Said, "I'll be there"  
I won't move  
Tell me more, or tell me nothing

Don't go on about it  
Stuck on standby  
Ain't a riddle for me  
Where your head's at  
How we thought about it  
Nothing, does it have to be?  
You can have all my love for free  
And I will keep the fire in me  
Even if it takes all goddamn night

Said, "I'll be there"  
I won't move  
Tell me more, or tell me nothing  
Said, "I'll be there"  
I won't move  
Tell me more, or tell me nothing

Don't you dare go down  
Tape the Polaroid to your dome  
Keep the sad shit off the phone  
And get your fine ass on the road!  
Girl, it's time that I do testify  
Whoa-whoa  
No more alone  
I hear you coming

"I'll be there"  
I won't move  
Tell me more, or tell me nothing  
Said, "I'll be there when you're gone"  
I'll be there when you come home  
And I'll be there  
Tell me more, or tell me nothing  
I'll be there, I'll be there, I'll be there

I'll be there when you're gone  
And I'll be there when you come home  
And I'll be there  
Tell me more, or tell me nothing  
And I'll be there

I'll be there, I'll be there  
I'll be there, there, there  
I won't move  
Tell me more, or tell me nothing  
Said, "I'll be there"
