

## U (Man Like)

Bon Iver

Mmm, mmm

I will see you off now  
Down the back of the ridge  
There's just something that I got to show you  
There's domer and there's rot  
And the common case  
It ain't nothing what you say is true

With your long arms, try  
And just give some time  
Presently, it does include my dues  
Ain't your standard premonitions  
All this phallic repetition  
Boy, you tell yourself a tale or two

Man like you  
Man, improve

Well, I know that we set off for a common place  
And the lines have run too deep  
How much caring is there of some American love  
When there's lovers sleeping in your streets?

So Cerberus Ride!  
Bring those dead alive  
Like Pirate Jenny on the Black Freighter  
It'll be a long day of fixing  
Make something else yo mission  
Boy, this shit's so hard to cue

Man like you  
How you do?
