

# One Step Closer

Bon Jovi

I've seen the heart of darkness  
Let's just say I crossed over that line  
Held hands with the hopeless  
In too deep on that ride  
Went around one more time  
When you're standing on the edge  
You don't look down  
Till you're ready and willing to fly  
Now I'm one step closer  
With my arms open wide  
I'm one step closer  
And I'm willing to try this time  
I hitched a ride with forgiveness  
In that river of emotion  
I went down a third time  
I spent the night with the living  
Took a chance looked inside  
Didn't know who I'd find  
Standing on the corner of hello and goodbye  
All alone it's there I made up my mind  
I'm one step closer  
With my arms open wide  
I'm one step closer  
And I'm willing and to try  
I'm sick of giving up  
With a little luck  
I'm gonna get out of here  
When you're standing on the edge  
You don't look down  
Till you're ready and willing to fly  
Now I'm one step closer  
With my arms open wide  
I'm one step closer  
And I'm willing to try  
I'm one step closer  
I'm one step closer
