

Save The World

Bon Jovi

G D

I never went to college

Em C

I don't have a degree

G D

Let's say I went to night school

Em C

I learned all I know on the streets

G D

I wasn't born a rich man

Em C

I ain't got no pedigree

Cm G

The sweat on this old collar

Cm

That's my Ph.D.

F Dm

It comes down to this

B

I wouldn't exist

Dm B

Without you it ain't worth the grind

F Dm

I'd fight for one kiss

B

On a night like this

E

You make me feel I could fly, like

A E Fism

R: I could save the world

D A E

Since the night your love saved me

A E Fism

Maybe I can't save the world

D A E

But as long as you believe

D Dm

Maybe I could save the world

F Dm

I got to confess

B

Sometimes I'm a mess

F Am

And Sometimes I step out of line

F Dm

Like this old tattoo

B

I ain't shiny or new

E

With you by my side nothing matters

R: I could save the world...

F Dm B Dm B F Dm B E

A E

They can say it's blind love

F#m D

But it's a fool who don't believe

A E

That I'd fly all the way to the moon

F#m D

Just to walk you down your street

R: I can save the world

Since the night your love saved me

Maybe I can't save the world

But as long as you believe

D

Our love is even stronger

E

Than god hoped it could be

D

Baby, all it takes is

E

Just a little faith in me

To feel like

D E F#m C# F#m7

I can save the world

D E B F# Asm E

I can save the world
