

Stranger in This Town

Bon Jovi

Hey mister can you tell me
What this worlds about
It might just help me out
I used to be a dreamer
But my dreams have burned
You know how luck can turn

Sometimes its hard to find a friendly face
Feel like a stranger to the human race
Its such a lonely, lonely place

I walk alone in the darkness of the city
Got no place to call home
I might be dyin
But you cant hear a sound
cause midnight rain is comin down
Im just a stranger, a stranger in this town

Everybody loves a winner
Till the winners lose
And then its front page news
Nobody loves a loser
When youre down and out
You know there aint no doubt

Im just a victim of circumstance
Please mister give me a helping hand
Brother wont you understand

I walk alone in the darkness of the city
Got no place to call home
I might be dyin
But you cant hear a sound
cause midnight rain is comin down
Im just a stranger, a stranger in this town

Im just a victim of circumstance
Please mister give me a helping hand
Brother wont you understand

I walk alone in the darkness of the city
Got no place to call home
I might be dyin
But you cant hear a sound
cause midnight rain is comin down
Im just a stranger, a stranger in this town
I mean no danger, Im a stranger, Im a stranger
Im a stranger in this town...
I mean no danger, Im a stranger...

Im just a stranger in this town
