

# Temptation

Bon Jovi

Place my missing picture on my beer  
I'm running away from home  
Sam I'm just a man  
A rusted bucket of flesh and bones  
Someday I'll seek forgiveness  
For the sweet smell of her breath  
She touched my hand and asked for a check  
I put out my cigarette

Temptation  
Temptation, go home Lord  
I'm walking straight into the ocean  
Tell the tide I'm on my way  
I'm gonna hang my head down tonight  
On Damocles sword

When the angels hung out in Eden  
They caught Adam chasing Eve  
They said grab your boots, your coat, your hat  
My boy, it's time that you leave  
She asked me if I'd liked to play  
'Cause she knew that I was broke  
I cashed my chips out months ago  
This smile is just mirrors and smoke

Temptation  
Temptation, go home Lord  
I'm walking straight into the ocean  
Tell the tide I'm on my way  
I'm gonna hang my head down tonight  
On Damocles sword

Twist my wrist  
Tell me I should resist  
But the flesh is weak  
Here comes the kiss

Twist my wrist  
I can't go on like this  
Ah the flesh is weak  
Here it comes, here it comes

Temptation  
Temptation, go home Lord  
I'm walking straight into the ocean  
Tell the tide I'm on my way  
I'm gonna lay my head down tonight  
On Damocles sword, temptation

I'm gonna lay my head down tonight  
On Damocles sword
