

## When She Comes

Bon Jovi

Outside this world keeps turnin round  
London bridge keeps burnin down  
But itll be all right, oooh

No one hears our silent screams  
In this land of broken dreams  
But itll be all right, when she comes

Itll be all right, when she comes  
Itll all be tight, when she comes

And when I lie she still believes  
She dont ask why, shes there for me  
When it gets hard, shes all I need to get by

I hear her voice in a thousand places  
I try so hard, still I cant escape it  
Shes the one, when she comes, yeah

And if the sky come fallin down,  
I never ever even hear a sound  
Its true, shes as great a red  
As blue skies are blue

Everythings all right, when she comes  
Everythings all tight, when she comes

And when I lie she still believes  
She dont ask why, shes there for me  
When it gets hard, shes all I really need

Everythings all right, when she comes  
Itll all be tight, when she comes  
When she comes  
Its all right, its all right, when she comes  
Its all right, its all right, when she comes  
Its all right, its all right, its all right, when she comes  
Its all right, its all right, its all right, when she comes
