

Have You Seen Him?

Bones Brigade

Had a bad session, the ramp was full
But you overheard about the animal
Round up the crew, let the quest begin
Have you seen him? the search for animal chin!

We're all guilty from time to time
For breaking a board cause we can't pull our line
Next time think of animal and leave your troubles behind
A focused board or a focused mind?

When men were made of iron, boards were made of wood
Wheels were made of steel and it was understood
Chin's the spirit of skating, having fun and getting rad
Have you seen him? I wish chin was my dad!

We're all guilty from time to time
For breaking a board cause we can't pull our line
Next time think of animal and leave your troubles behind
A focused board or a focused mind?
