

Sleepwalking Through The 80's

Bones Brigade

20 years later still suffering the effects a mistake
we can't seem to correct
make the president out of a movie star
did you really think he'd go that far?
Nothing's changing! Smash Reagan!
Tried to fade the media by faking alzheimers
if that's the case, lock him up with the old timers
A legacy of deceit corruption and lies,
I'll laugh the day that bastard dies
Every day we're on the decline, a govermental landslide
A mistake we can't make again, will we fall fall for it again?
And nothing's changing!
