

## Spot Search

### Bones Brigade

another city we've never seen  
in the van all day i dream  
of virgin ledges and sacred curbs  
hidden tranny's in the burbs  
can we shred? is it a bust?  
we'll find out this is a must  
stick it clean your first try  
on reaper's wings we thrash or die  
the only thing that gets me high  
blood rushing faster, do or die  
one chance so make it count  
anticipation, danger, spot search!!!!
