

Blood

BONES UK

Take a walk, brush this dirt off my shoulders
Hey brother, would you please just let it be
Another one that I love been run over
Get away, get away, get away from me

Another one that I love runs away
Another stain that I just can't seem to get out
I kiss your lips with the back of my palm so
Get away, get away, get away now

Man, that girl's a disease
She'll get into your blood and she'll never leave
I said, man, that girl's a disease
She'll get into your blood and she will never leave

I'm a girl who enjoys a cigar and
Kind of woman that enjoys sleeping with your friends
I'll kick the glass right out of your hand if
You ever try to meet me to commit again

And I'll sleep with my legs wide open
And I will die with my arms wrapped around myself
And if I do, can you sing at my funeral?
Get away, get away, get away now

Man, that girl's a disease
She'll get into your blood and she'll never leave
I said, man, that girl's a disease
She'll get into your blood and she'll never leave
I said, man, that girl's a disease
She'll get into your blood and she'll never leave
I said, man, that girl's a disease
She'll get into your blood and she'll never leave

So pack your things and run on home
Just pack your things, you're better off on your own
And rest assured you will never be cured
Rest assured you will never be cured

Man, that girl's a disease
She'll get into your blood and she'll never leave
I said, man, that girl's a disease
She'll get into your blood and she'll never leave
I said, man, that girl's a disease
She'll get into your blood and she'll never leave
I said, man, that girl's a disease
She'll get into your blood and she'll never leave

If you love me, you gotta let me live
If you love me
If you love me, you gotta let me live
If you love me, let me live

If you love me, you gotta let me live
If you love me, let me live
If you love me, you gotta let me live
If you love me, if you love me
