

## Filthy Freaks

BONES UK

I like your leather but I like it better on my floor  
I lady like your legs but I think I'll like them around me more

So did you get get everything you wanted?  
All you pretty little ones seem distorted  
Did you get get everything you came for?  
Cause you know I know that we know that you know that this is right

All the filthy freaks and the glamorous geeks come on  
(I need some peace man, I need some peace man)  
You're a fucking piece of art and I need some peace come on  
(Do what you can can to get some peace man)  
I I just met you but I know you know when you know  
Darling I I just met you but I know you know when you just know

I like your day time but I'll learn to love your night  
I don't like your dark so I will start to paint it white

So did you get get everything you needed?  
All you creepy little ones needing feeding  
Did you get get everything you came for?  
Cause you know I know that we know that you know that this is right

All the filthy freaks and the glamorous geeks come on  
(I need some peace man, I need some peace man)  
You're a fucking piece of art and I need some peace come on  
(Need something real to, sink my teeth into)  
I I just met you but I know you know when you just know  
Got my car still running in the car park come on lets go

All the filthy freaks and the glamorous geeks come on  
(I need some peace man, I need some peace man)  
You're a fucking piece of art and I need some peace come on  
(Do what you can can to get some peace man)  
I I just met you but I know you know when you know  
Darling I I just met you but I know you know when you just know

(I need some peace man, I need some peace man)  
(Do what you can can to get some peace man)  
I I just met you but I know you know when you know  
(I need some peace man, I need some peace man)  
All the filthy freaks and the glamorous geeks come on
