

Fix

BONES UK

Found you on the floor
Seen you there before
Reminded me of me
Spectacularly lonely

If you're like me
Just like me
You don't wanna be
Spectacularly lonely

Sticks like glue
Soaks right through
Flood into me as I flow into you
What a great angle to take a photo
A perfect reminder
Of how low that I'll go

Lying in the lining of your leather
It's frightening but it's about to get better
And I thought maybe I was fading
So why don't you just erase me
If I can fix you then you can fix me
If I can fix you maybe you can fix me

Pick another peach
Take another bite
All of your fruit is rotten inside
Red heart stop
You took the beat
I'd rather be spectacularly lonely
Lying in the lining of your leather
It's frightening but it's about to get better
And I thought maybe I was fading
So why don't you just erase me

If I can fix you then you can fix me
If I can fix you maybe you can fix me

Wanna be spectacularly lonely
Wanna be spectacularly lonely
Wanna be spectacularly lonely

If I can fix you then you can fix me
If I can fix you maybe you can fix me
If I can fix you then you can fix me
If I can fix you maybe you can fix me

Wanna be spectacularly lonely
Wanna be spectacularly lonely
Wanna be spectacularly lonely

(And I thought maybe I was fading
So why don't you just erase me)
