Leach

BONES UK

You think that the dark is a place you can dip into
Before you jump back into the light
You think that your pool is as deep as you dig it
Shallow water, you're not dipping into me tonight

I don't wanna be saved by you
I don't wanna be saved by you
I don't need your push to pull me through
I'll take help from anyone else but
I don't wanna be saved by you
I don't wanna be saved by you
I don't need your push to pull me through
I'll take help from anyone else but you

I do not trust you as far as I'll throw you
And I want to throw you away
Your religion is ugly but you are a good slave
Seen at the hippest VIP graves

I heard you heard we were cool now, but yo
We were always cool, you were not cool enough to know

I don't wanna be saved by you
I don't wanna be saved by you
I don't need your push to pull me through
I'll take help from anyone else but
I don't wanna be saved by you
I don't wanna be saved by you
I don't need your push to pull me through
I'll take help from anyone else but you

You are not getting near anything under my skin
I know the level of toxic you bring
You are not getting near anything under my skin
I know the level of toxic you bring

I don't wanna be saved by you
I don't wanna be saved by you
I don't need your push to pull me through
I'll take help from anyone else but
I don't wanna be saved by you
I don't wanna be saved by you
I don't need your push to pull me through
I'll take help from anyone else but you
