

A E I O U  
A E I O U  
A E I O U  
A E I O U

Vocal invasion through my voice box  
Vibrations through my voice box  
Vibrations make a vocal invasion

Then my body is connected to my brain  
Give it a name, I think we'll call it me  
Then my body is connected to my brain  
Give it a name, I think we'll call it me

I am who I am, no one else can be me  
I come as I am, no one else does me as well as me  
(Give it a name, I think we'll call it)  
You are who you are, no one else can be you  
(Give it a name, I think we'll call it)  
Do what you do, no one else does you as well as you

My thighs are connected to my thigh bone  
And my thigh bone's connected to my leg bone  
And my leg bone's connected to my thigh bone  
And my thighs are connected to you

My eyes are the window to my brain  
Is connected to my sight  
From my retina to my lenses  
And my pupils let in the light  
Is connected to the colours  
That are not the same as you see  
And in the shades of your iris  
There's not one fleck the same as me

Then my body is connected to my brain  
Give it a name, I think we'll call it me  
Then my body is connected to my brain  
Give it a name, I think we'll call it me

I am who I am, no one else can be me  
I come as I am, no one else does me as well as me

Then my leg bone connected to my thigh bone  
And my thighs are connected to you

Can you hear the bang bang bang rhythm of my ear drum  
The bang bang rhythm of my ear  
Can you hear the bang bang bang beat of my ear drum  
The drum that lets me hear

My ears have been the same since I was born  
They are connected to my head  
That is connected to two lobes  
Where I punch holes and dangle gold  
When you blow waves down my canals  
The ossicles they start to creak

And the way my drums sing  
Is connected to the way your words make me weak

Can you hear the bang bang bang rhythm of my ear drum  
The bang bang rhythm of my ear  
Can you hear the bang bang bang beat of my ear drum  
The drum that lets me hear

You are who you are, no one else can be you  
(Give it a name, I think we'll call it)  
Do what you do, no one else does you as well as you  
(Give it a name, I think we'll call it)

Can I put my prints on you?  
Put my fingerprints on you?  
Can I put my prints on you?  
Put my fingerprints on you?

My thighs are connected to my thigh bone  
And my thigh bone's connected to my leg bone  
And my leg bone's connected to my thigh bone  
And my thighs are connected to you
