

What If I Died

BONES UK

What if I died? What would I leave?
Would there be anything to cause you to grieve?
What did I change? What did I do?
Would there be anyone who cared except you?

Who would I be remembered as?
Would they all cry or would you all laugh?
What would you do with all of my things?
Would I have horns or would I have wings?

I'm always awake for nobody's sake
Maybe I'll never sleep
It's eating my brain
If I died today, would anything change?
Would anything change?

What was it worth? Did anyone pay?
Would anyone look up if I died today?
What did it all mean? Why was I here?
Would you sink some champagne or spit out some beer?

And who would I be remembered as?
Would you all cry or would you all laugh?
And what would you do with all of my things?
Will I have horns or will I have wings?

I'm always awake for nobody's sake
Maybe I'll never sleep
It's eating my brain
If I died today, would anything change?
I'm always awake for nobody's sake
Maybe I'll never sleep
It's eating my brain
If I died today, would anything change?
Would anything change?

Would anything change if I died?
Would anything fucking change?
