

Won't Settle

BONES UK

All of them boys wanna put golden rings 'round my fingers
But I still need my knuckles free to punch
Throw white lace over my face when I'm dancing in the disco
Throw white lace over my face when I'm spinning in the dark

My one and only but you can't own my heart
(Stay or go, you know, I still love you though)
My one and only can never own me

I won't settle for anything other than everything
I won't settle
I won't settle for anything other than me
I won't settle
Cause when you stop the clock spins faster
Don't want a part of your happy never after
I won't settle for anything other than everything
I won't settle

All of those thems wanna wrap silver steel 'round my ankles
So when I try to sail all I do is sink
I'll drive that car so far 'til the city looks like stardust
Lay me down to the sound of a brand new friend

My one and only but you can't own my heart
(Near or far you are, still know how close we are)
My one and only you'll never own me

I won't settle for anything other than everything
I won't settle
I won't settle for anything other than me
I won't settle
Cause when you stop the clock spins faster
Don't want a part of your happy never after
I won't settle for anything other than everything
I won't settle

I won't settle
I won't settle

I won't settle for anything other than everything
I won't settle
I won't settle for anything other than me
I won't settle
Cause when you stop the clock spins faster
Don't want a part of your happy never after
I won't settle for anything other than everything
I won't settle

I won't settle
I won't settle
