Computer on the move
Gonna' make your body groove
Gonna' hold you tight and lift you to the top
If your feeling kind of low
Press the trigger in you go
And you better never wanna' make it stop

Sample City
Sounds so pretty
If they bit is feeding human touch
Sample City
More than pretty
Apparently it turns you too whatever it does so much

Your feeling like a clown

If you enter sample town

All the finest songs are hidden in a chip

With the funny noise around

Is it music is it sound

So you travel on a psychedelic trip

Sample City
Sounds so pretty
If they bit is feeding human touch

More than pretty
Apparently it turns you too whatever it does so much
