

## Angel In White

Bonfire

Just like an angel you were falling from the sky  
It was some kind of magic in your eyes  
You must have been Heaven sent  
Yeah it's like a dream come true  
I've been waiting for someone just like you

It feels like the first time though I've been in love before  
But you've got me longing, longing for more, yeah

Angel in white  
Don't you know you set my heart on fire  
Angel in white  
Don't you know I'm burning for you

Too many heartaches, too much sorrow, too much pain

It was nearly driving me insane, oh yeah  
It's a magical mystery. must have come from high above  
It's a deadly case of hopeless love

Feels like the first time, just the way you're holding me tight  
We're gonna count the stars tonight, tonight, whoa

Angel in white  
Don't you know you set my heart on fire  
Angel in white  
Don't you know I'm burning for you

Angel in white  
Don't you know you set my heart on fire  
Angel in white  
Don't you know I'm burning for you

Angel in white  
Hold me now and feel my deep desire  
Angel in white  
Don't you know I'm burning for you

Angel in white  
Don't you know you set my heart on fire  
Angel in white  
Don't you know I'm burning for you
