

# But We Still Rock

Bonfire

Deadringers for the industry  
Short-lived heroes, rap on MTV  
Clearance sale of Rock'n'Roll  
A social disease for TV and radio

We just keep on going  
Like a moth to the flame  
Rolling with the good times  
Some things never change

But we still rock  
Yeah, we still rock and roll  
But we still rock  
Yeah, we still rock and roll

Written off so many times  
Life in the doghouse did not break my spine  
Out of sight and out of mind  
Sticks and stones, my bones, your words, my pride

We just keep on going  
Like a stone we're rolling on  
Gotta bite the bullet  
'Til you're dead and gone

But we still rock  
Yeah, we still rock and roll  
But we still rock  
Yeah, we still rock and roll

But we still rock  
Yeah, we still rock and roll  
But we still rock  
Yeah, we still rock and roll

But we still rock  
Yeah, we still rock and roll  
But we still rock  
Yeah, we still rock and roll

We just keep on going  
Like a stone we're rolling on  
Gotta bite the bullet  
'Til you're dead and gone

But we still rock  
Yeah, we still rock and roll  
But we still rock  
Yeah, we still rock and roll

But we still rock  
Yeah, we still rock and roll  
But we still rock  
Yeah, we still rock and roll
