

Can't Break Away

Bonfire

You've got control of me I can't break away
Lookin for reasons to stay in the game
Keeps me from losin my mind
I don't know why I keep runnin to you
Feels like I'm losin my way
I don't know why it brings pleasure to you
Misery loves company too.

You took my soul from me threw it away
Used me while I played a part in your fame
Layin my heart on the line
I don't know why I keep listening to you
Pushin me out of the way
I don't know why you do the things that you
do
Leavin me out in the blue

I'm tryin to find a way to get back in control

Out of the dark there's a light shinin out for
me
I know I can't break away I can't break away

You've got control of me I can't break away
Used me while I played a part in your fame
Layin my heart on the line
I don't know why I keep runnin to you
Feels like I'm losin my way
I don't know why it brings pleasure to you
Misery loves company too

I throw it all away and take back my control

Out of the dark there's a light shinin out for
me
I know I can't break away
Deep in my soul there's a hunger that's haunting
me
I know I can't break away
I can't break away
