

Who'll be the winner in our filthy wars  
What is the reason why we all act like whores  
Where are we going when the worms eat our flesh  
Why are we caught up in this fine mesh of cash

Who will be there for me in times I fell alone  
How can my destiny teach me right from wrong

I'm going crazy, crazy - (I got) too much on my mind  
I'm going crazy, crazy - all the time  
I'm going crazy, crazy - crazy night and day  
I'm going crazy, crazy - it's takin' me away

Who'll be the saviour of a starving child  
What is the reason for a mad man gone wild  
Where are we going when we burn in the heart  
Why don't we comfort all the people in need

Who really cares about that what I fell inside  
How can I get my fair share of what I'm trayng to find

I'm going crazy, crazy - (I got) too much on my mind  
I'm going crazy, crazy - all the time  
I'm going crazy, crazy - crazy night and day  
I'm going crazy, crazy - it's takin' me away
