Deadly Contradiction

Night time - I feel so alone Visions of you in the tears I cry  
Where is my place to call home I'm slipping away in fantasy

I thought our love was true and strong All that you left me was  
just Thinkin' I did it all wrong

I hate you and I love you Deadly contradiction I hate myself fo  
r loving you so much I hate you and I love you Day and night ad  
diction I hate myself for longing for your touch I hate you and  
I love you I want you and I need you - tonight

Rain like tears from the sky Washing away your lies and sin Sta  
ying alive 'til you die Love is a war you'll never win

Your love is like a parasite It's eating up my heart It's killi  
ng me tonight

I hate you and I love you Deadly contradiction I hate myself fo  
r loving you so much I hate you and I love you Day and night ad  
diction I hate myself for longing for your touch I hate you and  
I love you I want you and I need you - tonight

No - I won't come home tonight Feel - my love and hate collide  
No - I won't come home tonight
