

## Dirty Love

Bonfire

You walked up, dangerous smile, hungry like a crocodile  
You've got the devil ... in your eyes I was taken by the sheer surprise

You eat my body, eat my soul Don't tell me that I'm losing control  
You tried to kill me ... with one bite Man, I can't believe we're doing it right, no

Dirty, dirty love But such a good time All I've got to do is survive  
Dirty, dirty Always a good time Baby baby baby

Chorus: Bang on your dirty love - every night but it's not enough  
Tell me honey - do you like it rough? Just bang on your dirty love

I was good, you were bad You were the best time ... that I ever had  
But now it's late, I've got to go You make it harder than you'll ever know

Dirty, dirty love Had a good time Maybe we can do it again  
Dirty, dirty Such a good time Baby baby baby

Chorus

Bang on - No matter where we're going Gonna keep on bangin'  
Bang on - Caught up in your dirty love

Dirty, dirty love (2)

Chorus (2)

Bang on your dirty love
