

Fallin`

Bonfire

On through the night
You came into my view
I need someone
Someone like you

Hearts beat
They never surrender
Our love so sweet and tender
Came here looking for you
And my dreams can come true

And as the nights grow colder
I'll be there
And if you ever need a shoulder
I'll be there

I'm falling
You call my name
Our hearts on fire
But they don't feel the same
I'm falling
I can't see
Prove your love to me

If I could
Save this moment in time
I hold you so tight and never
Let you go

Hang on to the sweet emotion
I'll give you deep devotion
Take my love and keep it safe
I'll give it all to you

In your dreams
I'll be there
For you
Always
I'll be there

I'm falling
You call my name
Our hearts on fire
But they don't feel the same
I'm falling
I can't see
Prove your love to me

I'm falling
You call my name
I'm falling falling falling
I can't see

And as the nights grow colder
I'll be there
And if you ever need a shoulder
I'll be there

I'm falling
And you call my name
Our hearts on fire
They don't feel the same
I'm falling
I can't see
Prove your love to me

I'm falling
And you call my name
Our hearts on fire
They don't feel the same
I'm falling
I can't see
Prove your love to me
I I I I I
I'm falling
I'm falling
