

## Fly Away

Bonfire

You been down this road before  
A million miles from home  
Will you ever find the cure?  
Restless days and lonely nights  
Endless passing go  
And on to the night

Though you have always been searching for love  
A diamond in your pile of stuff

Spread your wings and you can fly  
Fly, angel, fly, way up to the sky  
Let the wind carry you away  
Fly, angel, fly away

Though you have been hurt before  
All those fears you cried  
Like waves crashing on the shore  
Some things always stay the same  
And some things will never  
Never change

Though you have always been searching for love  
A diamond in your pile of stuff

Spread your wings and you can fly  
Fly, angel, fly, way up to the sky  
Let the wind carry you away  
Fly, angel, fly away

Spread your wings and you can fly  
Fly, angel, fly, way up to the sky  
Let the wind carry you away  
Fly, angel, fly away

Spread your wings and you can fly  
Fly, angel, fly, way up to the sky  
Let the wind carry you away  
Fly, angel, fly away

Fly away  
Angel, fly  
Fly away
