

## Friends

Bonfire

We've had it all before How could we ask for more The greatest  
gift of heaven is a friend We've walked through hell and back W  
e never lost our track We're stronger now than ever before

We will be friends until the end Til death do us part We're hol  
ding on, 'cause we belong Together side by side

Like truth is without lie We'll never say good-bye Until we mee  
t in heaven again Within the wildest storm You'll never walk al  
one My thoughts are always with you - we're friends

(Chorus:) We will be friends until the end Til death do us part  
|: We're holding on, 'cause we belong Together side by side :|

May come the darkest night I know we'll be alright My guiding s  
tar on high, my light Til the end - 'cause we're friends
