

# Higher Ground

Bonfire

Whispers of war  
Have knocked on my door  
Will you live? Will you die?  
Who will cry for you?  
The will to survive  
Will you run? Will you hide?  
No one's by your side  
In the darkness

Lost in mystery  
Pick up the pieces and try to move on  
Never give up

On the way  
To salvation  
Lead us to higher ground  
On the way  
To be free again  
Lead us to higher ground

Darkness shines  
In desperate times  
Now you see, now you hear  
Now you live in fear  
You fight for your life  
Through the screams, your worst dreams  
Have come true for you  
Through the ashes  
Through the ashes  
Falling all around  
You pick up the pieces and try to move on  
Never give up

On the way  
To salvation  
Lead us to higher ground  
On the way  
To be free again  
Lead us to higher ground

In the darkness  
In the darkness  
Lost in mystery  
Pick up the pieces and try to move on  
Never give up

On the way  
To salvation  
Lead us to higher ground  
On the way  
To be free again  
Lead us to higher ground

Lead us to higher ground  
Higher ground
