

Just Follow The Rainbow

Bonfire

Just Follow The Rainbow

Red is the colour of blood and love

Blue is a symbol for peace and skies above

Green is the colour of safety and hope

Black is the symbol of sorrow all over the globe

Life is like a prism - hiding our destiny

A pot of gold - through the eyes of a child

So just follow the rainbow

Every colour shows a little piece of truth

Just follow the rainbow

Living colours like a miracle come true

Just follow the rainbow

White is the colour of an innocent child

Purple's the symbol for a churchman gone wild

Yellow's the colour of wisdom and joy

Black is the colour of water reflecting the oil

There's a treasure waiting - right before your eyes

Until the sun kisses the rain - again

So just follow the rainbow

Every colour shows a little piece of truth

Just follow the rainbow

Living colours like a miracle come true

Just follow the rainbow
