

Let It Grow

Bonfire

No more hunger - no holy wars It all lies in our hands
No more soldiers - no rich and poor Paradise and promised land

Some people say I'm just a daydreaming fool
Out of season - out of mind

I'm still dreaming 'bout a world united I grow the seed of love
and hope inside Everybody's sharing peace and freedom
Let it grow - let it grow

No repressions - no more chains For the one's who want to be -
free No walls and fences - no more pain Just imagine what you see

We all just carry on and turn another page Hoping and praying for
or a time of change

I'm still dreaming 'bout a world united

I grow the seed of love and hope inside

Everybody's sharing peace and freedom

Let it grow - let it grow
