

Lost All Control

Bonfire

I was floating in darkness
the light shined upon me
seems like forever I lined up
to take what they gave me
I can see from out in space
the world keeps turning
still I can't keep from getting left behind crushed my mind
Lost All Control
spinning in sadness
I've lost all control
lost all control
deep in madness
it tears at my soul
Up here the earth looks so empty
the stars shine much brighter
like diamonds they hang there
till one day they fall
I believe that I can see
I live in the madness
and all that I wished I could be
gets away from me
Lost All Control
spinning in sadness
I've lost all control
lost all control
deep in madness
it tears at my soul
Lost All Control
spinning in sadness
I've lost all control
lost all control
deep in madness
it tears at my soul
Lost All Control
spinning in sadness
I've lost all control
lost all control
deep in madness
it tears at my soul
