

On the Wings of an Angel

Bonfire

Every day, when the sun rises up through the night
It goes on and always will win the fight
In your prayers, man only sang his song
In your dream, the best is still yet to come

When the fire of danger
When you believe in fate
Would you come here
And read the past?
If you knew which path was right

On the wings of an angel
Soaring higher, so soar
On the wings of an angel
We only hope
On the wings of an angel

Distant memories
Keep comin' back to me
Like a river flows to the sea
Without you a day's are not so bright
And the wall is
Always begun to fight

If you were here with me
Just for one more day
I would never let you go
My heart can't take the pain

On the wings of an angel
Soaring higher, so soar
On the wings of an angel
We only hope

On the wings of an angel
Soaring higher, so soar
On the wings of an angel
We only hope

On the wings of an angel
Soaring higher, so soar
On the wings of an angel
We only hope
