

## Ride the Blade

Bonfire

Every day just seems the same  
Dark desires fuel the flames  
These four walls are closing in  
Even getting out's a sin  
The fire's coming very near  
It's time to jump or burn  
There's no way out  
Nowhere to turn  
You drank from the devil's urn

Every time the lights go down  
I pray the Lord to keep  
I wake up in a nightmare  
It's better when I sleep

Ride the blade, ride the blade  
Don't want to live for another day  
The darkness taken over me  
The only way to set me free  
Ride the blade, ride the blade  
Ride the blade, ride the blade  
I've fallen in with no way out  
Ride the blade, ride the blade

Does it really stay the same  
As years of pages turn  
Livin' with a broken heart  
And tears of lessons learned  
Why does it have to be this way  
To hide a hidden pain  
Storm is rolling over me  
And I drown in a drop of rain

Ride the blade, ride the blade  
Don't want to live for another day  
The darkness taken over me  
The only way to set me free  
Ride the blade, ride the blade  
Ride the blade, ride the blade  
I've fallen in with no way out  
Ride the blade, ride the blade
