S.D.I.

Bonfire

Star wars – no more fantasy, once in movies
Today reality

Time bombs – tickin' out in space, nuclear
Rainbows above the human race

So, is it just the game our leaders play
It's no one's game, becoming clear today
S.D.I. – killers in the sky
S.D.I. – are we all gonna die
S.D.I.
S.D.I. – don't know why

We know – that snakes try to bite, but
For you and me, there's no reason to fight

Overkill – no one will survive, so why can't
You see that we're much too young to die

So, is it just the game our leaders play
It's no one's game, becoming clear today

S.D.I. – killers in the sky
S.D.I. – are we gonna die
S.D.I.
S.D.I. – don't know why

So, is it just the game our leaders play
It's not a game, we all know today

S.D.I. – killers in the sky
S.D.I. – are we all gonna die
S.D.I.
S.D.I. – don't know why
