

The Good Die Young

Bonfire

Do you believe anything in life is free?
You'll pay the price with no money back guarantee
Too little of this, too little of that
Life is a bitch when you're caught in a trap

It's all about love, it's all about fun
Everything goes when you're wild and young
It's all about love, it's all said and done
Everybody knows that the good die young
Everybody knows that the good die young

Stuck in your dreams you're a body without a soul
Don't be afraid when your heart is taking control
Don't you harder your heart, it'll be alright
Dreams come alive whenever you like

It's all about love, it's all about fun
Everything goes when you're wild and young
It's all about love, it's all said and done
Everybody knows that the good die young
