

# Until The Last Goodbye

Bonfire

It's so hard  
to write another lovesong girl  
It's so hard  
it's all been said and sung before  
Could this - be love  
are you the one I was dreaming of  
Words can't describe  
What my heart's tryin' to say  
Until the last good-bye  
I'll be by your side  
Anytime - day and night  
Until the last good-bye  
I'll kiss you good night  
Until our last good-bye  
I would lie  
pretending it don't mean that much  
I would lie  
if I would say I don't need your touch  
I feel bad - without you - I can't hide  
these moments of truth  
I never knew love - before I knew you  
Until the last good-bye  
I'll be by your side  
Anytime - day and night  
Until the last good-bye  
I'll kiss you good night  
Until our last good-bye  
If it can last for a moment  
It can last a thousand years  
I'll be your bread and your water  
And the one to dry your tears  
Until our last good-bye  
Until the last good-bye  
I'll be by your side  
Anytime - day and night  
Until the last good-bye  
I'll kiss you good night  
Until our last good-bye
