

## Warrior

## Bonfire

Through broken hearts and twisted steel  
My blood runs hot and it makes me feel  
Always reaching never turned away  
On the darkest night or the brightest day

When everything comes fallin' down  
I keep pushing rolling on and on

One night can make eternity  
One night I'm on the rise  
When the hammer comes down  
And the strong survive  
No one's gonna stop me, keep me back  
No matter how they try  
I'm a warrior  
Warrior

Through endless days and sleepless nights  
I'm not the one who's gonna give up the fight  
Keep on fighting I'll never stand down  
Who needs a king with a broken crown

When any day can be the last  
Never look back wishing on the past

One night can make eternity  
One night I'm on the rise  
When the hammer comes down  
And the strong survive  
No one's gonna stop me, keep me back  
No matter how they try  
I'm a warrior

One night can make eternity  
One night I'm on the rise  
One night can make eternity  
One night I'm on the rise  
When the hammer comes down  
And the strong survive  
No one's gonna stop me, keep me back  
No matter how they try  
I'm a warrior
