

When Love Comes Down

Bonfire

Lost...
In a small empty room
No sign of life from you
Lies...
Like a knife they cut so deep
I close my eyes and go to sleep

Love
It's up to us
To realize together
All of the way

When love comes down
Two hearts belong together
It can take us high
On the winds of forever
All this broken road
That leads us to never
When the love comes down
Our hearts belong together

Run...
A life you can not live again
Pain was your only friend
In my eyes you hope
To be free again
Love will always find a way

Love lost in the dark
Taken from our hearts
It's up to us

When love comes down
Two hearts belong together
It can take us high
On the winds of forever
All this broken road
That leads us to never
When the love comes down
Our hearts belong together

When love comes down
Two hearts belong together
It can take us high
On the winds of forever
All this broken road
That leads us to never
When the love comes down
Our hearts belong together
Our hearts belong together

Our hearts belong together
