Call My Name

BONNIE PINK

When she died in your heart Did you hear the sound of it? When you found something new to love Did you hear your brain Say "go"?

It's easy to look back
But you can't undo the past
Why don't you try your luck
Just call my name

You must be sick of
Space and time
Haunted by your lies
With the things you chose
In your life
Did you ever feel satisfied?

It's easy to look back
But you can't undo the past
I'll justify your lack
Please call my name
It's easy to look back
But you can't undo the past
Why don't you try your luck
Just call my name

It's easy to look back
But you can't undo the past
Why don't you try your luck
Just call my name
