

## Quiet Life

BONNIE PINK

This is land very far from you  
I never can touch your face  
This is the land far from happy  
So am I, no matter where I go  
Pretty landscape, fresh coffee  
Quiet life I longed for is my enemy now  
"What's wrong with you, babe ? "  
Ask an old goat  
I forgot everything even a bitter smile

In a dream, darling  
You stroke my arms and say  
"It's O. K. It's O. K. "  
But I knew it doesn't last so long  
So I try to dream of you every night  
And I try to hold you every time

This is the land very far from you  
I never can hear your voice  
This is the land far from success  
So am I, no matter how you bet  
Perfect starry sky, grand piano  
Quiet life I longed for is my enemy now  
Birds started for you  
Left me here  
I forgot everything even your way of waving

In a dream, darling  
You stroke my arms and say  
"It's O. K. It's O. K. "  
In a dream, darling  
You stroke my hair and say  
"It's O. K. It's O. K. "  
But I knew it doesn't last so long  
So I try to dream of you every night  
And I try to hold you every time
