

Cows

Bonnie 'Prince' Billy

A house with sign we all know:
Welcome, folks to come and go, give money
Smiles and families grow
The lord says it shall be so
But two... sound came crashing down
And hidious ruled all the town
The house was shut down
You're welcome here, but
Others are not welcome here
One voice said please come this way
Another place, not very far
White walls and no faces painted
Underneath the moon and stars
Fat men smiling, bearded men
With blue eyes shining
... Human grace
Has nver been, nor will be
You're welcome here, but
Others are not welcome here
