Bonnie 'Prince' Billy

I am a cinematographer  
I am a cinematographer  
I am a cinematographer  
I am a cinematographer  
And I walked away from New York City  
And I walked away from everything that's good  
And I walked away from everything I leaned on  
Just to find it's made of wood  
Made of wood, wood  
And I was a big old bear once  
I was a big old bear once  
Oh, I was a big old bear once  
Well, I was a big old bear once  
And I walked away from California  
And I walked away from everything that's shown  
And I walked away from everything I lived for  
Just to find everything had grown  
Everything had grown, grown  
And I am a cinematographer  
I am a cinematographer  
Oh, I am a cinematographer  
I am a cinematographer  
And if you were alone  
You could walk away from Louisville
