

Hungry Hearts

Bonnie Tyler

Well it feels like there's something
Like a song on the radio
When it's gone I remember
And I can't let it go 'cos
All I knew was - tears in the rain
'Till darlin' I found you and
You took it all away

Hungry hearts - they beat as one
Hungry hearts - and I got one
I can feel it - can you feel it?
Could it be a fire startin'?
Hungry hearts

All these years I've been runnin'
Like I'm lost and all alone
But with you I am stayin'
Darling you to know that
All I knew was - walkin' away till somehow I found you and
I don't want to let go

Hungry hearts - they beat as one
Hungry hearts - and I got one
I can feel it - can you feel it?
Could it be a fire startin'?
Hungry hearts

Tonight
I remember, do you remember?
All the songs they would play on the radio
They were good days, with the DJs
How they turned it up louder and louder and
Nothing else mattered at all

Hungry hearts - they beat as one
Hungry hearts - and I got one
I can feel it - can you feel it?
Could it be a fire startin'?
Hungry hearts

Hungry hearts - they beat as one
Hungry hearts - forever young
