

## Summertime Friends

Bonny Doon

You and all your summertime friends  
You and all your summertime friends

You talk you talk  
All you ever do is talk

You and all your summertime friends  
You and all your summertime friends

You look so fucking good  
But how how do you feel

You and all your summertime friends  
You and all your summertime friends

When they all disappear  
I'll buy you a beer

You and all your summertime friends  
You and all your summertime friends

How do you feel  
How do you feel  
How do you feel  
Yea, how do you feel
