

# Take Me Away

**Bonny Doon**

Come and take me away  
Come and take me away  
You know I got nothing to say  
Come and take me away

Come and shake me awake  
Come and shake me awake  
You know I can't get it straight  
Come and shake me awake

Come and take me away  
Come and take me away  
You know I got nothing to say  
Come and take me away
